Dear Parents/Guardian

Help shape future support and services for young people across Wokingham

Wokingham Borough Council Public Health has commissioned independent insight and engagement specialists, ICE Creates, to do research with young people aged 11-18 across the borough.

The project aims to better understand young people's experiences, attitudes and awareness relating to:

- Alcohol
- Drugs
- Tobacco
- Vaping
- Gambling

The findings will help inform future education, prevention initiatives and support services for young people and families across Wokingham. They would like to hear from young people aged 11-18, whether young people have direct experience of these topics or not, they would like to hear their views.

How to Take Part

This has been posted on student Google Classrooms today for ease, but please find the information below.
