Dear Parent/Guardian

Design & Technology – Materials Contribution KS3

The school continues to fund the Design & Technology department; however, with the rising cost of materials, it has become increasingly challenging to fully cover the resources required for practical projects and machines.

For several years, we have therefore requested a small contribution from students towards the materials they use, including wood, plastics, fabrics, and electronic components.

For this academic year, we are asking for a contribution of **£10.00** for students in **Years 7 and 8**. Contributions are to be made via **Parent Pay**.

Your support ensures that we can continue to provide students with engaging, hands-on learning experiences that develop valuable creative, technical, and problem-solving skills. Without these contributions, it would not be possible to offer such a wide range of high-quality practical projects.

Thank you for your continued support of the Design & Technology department.

Yours sincerely

Mrs I Sunthareswaran

Head of Design & Technology
